

Woodpecker Farm

In 1972 Mr. and Mrs. Charles Linton, their children; Craig, Beth and Forrest, and six ponies, moved to Woodpecker Farm. This was the beginning of a succession of local, state and national champions.

Beth Linton is a well-known and respected member of the Hunter community in Virginia.

As a young person in the show ring, she accumulated numerous Championships on the "A" Circuit. Beth has

a degree in Horsemanship from Southern Seminary College with emphasis in Stable Management, Horse Show Management, Instructor Training and Equine Medicine.

After graduation, she gained valuable experience as an instructor at The Barracks Equestrian Center in Charlottesville, Va; the home of the UVA riding team and a top show barn in the state.

Snead Stables at Braehead Farm

Braehead Farm is located just off the Blue-Grey Highway in Fredericksburg. This is an old farm with a new equestrian venue.

Braehead offers the same summer program with instructor, Beth Linton. This facility incorporates a nostalgic dairy barn with all the new amenities of an equestrian center.

Summer Camp

These camps are scheduled for all levels of riders. The focus will be on teaching young equestrians proper and safe riding techniques and care for horses and equipment.

Advanced levels excel in perfecting riding skills and expanding their horse knowledge

Each day, weather permitting, there will be lessons on horseback and off. A typical day would have a lesson, unmounted instruction, and mounted games or a trail ride.

Sessions will be 1 week (Monday through Friday) from 9:00A.M. to 3:00P.M.

Advanced Camp

Great opportunities are in store for those advanced campers who are accepted. They will benefit from having instruction everyday and guest professionals.

Emphasis will put on each individual's skills that may need attention both on and off horses. In addition, they will be trained in course designing, horse show management and produce our Tuesday evening horse show.

Of course there is always time for fun and games.

Advanced campers must be able to jump a 2' course and know their leads and diagonals. Please inquire about updated itineraries.

What you need to bring

- ASTM Approved riding helmet
- Jodhpur type boots - with 1/2" to 1" heel
- Lunch (water and snack provided)
- One change of clothes
- Extra shoes for hiking and playing
